Date	12 November 2022
Team ID	PNT2022TMID50723
Project Name	Car resale value Prediction

Project Structure:

- Dataset folder contains the training and testing images for training our model.
- We are building a Flask Application which needs HTML pages stored in the templates folder and a python script app.py for server side scripting.
- We need the model which is saved and the saved model in this content is gestures.h5.
- The static folder will contains js and css files.
- Whenever we upload image to predict, that images is saved in uploads folder.
